## STOP COVID-19 AT HOME

### *Purpose of MiOra STOP COVID-19 Training Kit*

We are in the middle of a pandemic. COVID-19 changed the way we live. People are losing jobs, not able to attend school and households are crowded. The virus spreads at home and kills the elderly and those with chronic illness. We socially isolate, wash hands and wear masks outside the home, but we don't know what to do to stop the spread of COVID-19 at home! The cost of one kit is \$36 and protects 16 people (\$2.25/person)

### **HOW IT WORKS**

*MiOra STOP COVID-19 at HOME kit provides the training to stop the spread of the virus t home. It provides faceshields, surgical grade facemasks, divider to isolate the ill person and a bilingual infographic to display at home. This easy-to-use educational kit developed by MiOra is designed to specifically meet the needs of community members who are at highest risk. It is portable and reusable, allowing for easy storage and convenient transportation from house to house.*

### **WHAT IS PROVIDED**

- Facehields • Surgical facemasks • Divider • Contact Tracing Sheet • Infographic with links to Resources

#### **MiOra STOP COVID-19 at HOME Kit includes:**

- 1 Fashionable bag
- 2 Reusable Faceshields (for the sick person and caregiver)
